As regards replacing my **silver** bolts with **black** bolts and general usage of the “Conecto”, “Conecto Small” and “Conecto Swivel”, I acknowledge the following:

- As described in the instructions for usage for the “Conecto, Conecto Swivel” and “Sliding-D-Kit”, the bolts are only to be tightened using a torque wrench.
- The bolts are only to be tightened to the required torque.
- The torque of the bolts is to be checked after the first 20 hours of use.
- The torque is to be checked yearly.
- The special safety nuts are designed to be used only once.
- Only bolts and safety nuts supplied by EDELRID are to be used.

I have read, understood and will comply with the replacement manual and the rules listed above.
